## SUMMARY

Software Developer with 3.10 years of experience in the design, development, testing, and implementation of web applications using Microsoft Technologies. Proficient in C#, .Net MVC, JavaScript, jQuery, SQL Server, MySQL, and VUE.js. Skilled in creating and maintaining scalable web applications, writing efficient SQL queries, and integrating third-party services such as payment gateways and SMS APIs. Hands-on experience with modern web development using VUE.js and expertise in database management using SQL Server and MySQL.

---

## SKILLS

- Programming Languages: C#, JavaScript, SQL
  - Frameworks & Libraries: .Net MVC, .Net WEB API, .Net Core, jQuery, VUE.js
  - Databases: SQL Server, MySQL
  - Tools & Technologies: Visual Studio, Visual Studio Code SourceTree, Bitbucket and JIRA
- 

## WORK EXPERIENCE

### Software Developer

(Mocero Health Solutions (IITM Research Park), Chennai, May 2022 – Present)

- Developed and maintained web applications using C#, .Net MVC, and .Net WEB API.
  - Implemented client-side functionalities using JavaScript, jQuery, and VUE.js.
  - Designed and optimized SQL queries, stored procedures, functions, views and triggers in SQL Server and MySQL.
  - Application performance and user experience through efficient code practices and regular code reviews.
  - Collaborated with cross-functional teams to gather requirements and ensure seamless project delivery.
- 

## PROJECTS

### Hospital Management System (HMS)

- Created a smart hospital solution for multispecialty hospitals.
- Included features for appointment booking, case sheet management, billing, lab services, and inpatient services.
- Technologies: .Net MVC, .Net Web API, MVC, SQL Server, jQuery.

## Inventory Management System

- Developed a comprehensive inventory management system for hospitals.
- Key Features:
  - Maintains stocks across main, sub, and department stores.
  - Manages stock requests, issues, and returns within mapped stores.
  - Handles purchase indents, purchase orders, GRN, GRN returns.
  - Incorporates an approval flow for each process.
- Technologies: VUE.js, .Net Core, SQL Server, postgresql.
- Responsibilities: Front-end development with VUE.js, backend services with .Net, and database management with SQL Server.

## Pharmacy Billing System

- Built an integrated billing system for hospital pharmacies.
- Key Features:
  - Bills all inventory items to patients, integrated with the Hospital Management System (HMS).
  - Includes mobile ordering flow with estimation and tracking.
- Technologies: VUE.js, .Net Core, SQL Server.
- Responsibilities: Developed the front-end and backend, managed data integration with HMS and the Inventory Management System.

## Customer Relationship Management (CRM) System

- Developed a CRM system tailored for hospitals.
  - Key Features:
    - Focuses on contact management, lead tracking, and task scheduling.
  - Technologies: VUE.js, .Net Core, SQL Server.
  - Responsibilities: Designed the user interface, implemented backend functionalities, and ensured efficient data handling and user training.
- 

## EDUCATION

### Bachelor of Computer Science - (73%)

St.Joseph's College, Cuddalore, Tamil Nadu

June 2018 – April 2021

---

## PERSONAL TRAITS

- Proactive and extremely committed to work
- Willingness to learn new technologies
- Quick learner
- Time Management
